

# Human Capabilities Analysis Dashboard

Imagine a world where we could measure the human capabilities of every person in a workforce, it would be a game-changer in how businesses would be run.

The key is measuring human capability from demonstrated behaviors within the work context that organizations need with rapid, easy adaptability.

## The Recurrence Digital Work Sample

- We can use simulations and pre-built models at any scale. Our platform rapidly enables you to create a custom branded experience with exactly the capability data that you want to measure using your own real context, organizational data and situations.
- This isn't just for individual measurement: this approach provides data on teams, functions or even the organization itself to identify where managers, processes or culture may be crushing organizational capability.

EASY TO USE  
Intuitive Interface

EASY TO DEPLOY  
Works with your organization

EASY TO DERIVE  
ACTIONABLE BUSINESS DATA

EASY FOR YOUR TEAM TO  
INTEGRATE WITH YOUR EXISTING HCM SYSTEM

## Recurrence's Human Capabilities Analysis Dashboard

Unlock the power of your organization's greatest asset - *your people!*
